

Honeywell Counter Day

RSD is hosting a Counter Day event with Honeywell. Here you will learn about their latest innovations, including how they work and where you can find success with each product. One in particular is the JADE Economizer that works by bringing in outdoor air to lower a building's interior temperature naturally. This is an opportunity to have any questions you may have answered about Honeywell products.

PRODUCT DEMOS

- Tuesday, July 9th, 2024
- 10:00am to 1:00pm at the So. San Francisco branch
- Presented by Jim Gutierrez of Honeywell
- This is a free event
