

Air Flow Troubleshooting Basics

RSD is hosting an Airflow trouble shooting class. We will discuss the basics of diagnosing airflow issues and perform hands on measurements using some of the basic tools used to measure airflow. Technicians will walk away with a better understanding on how to measure static pressure and gain the ability to use the tools to take the measurements correctly.

SPACE IS LIMITED!

- Thursday, February 27th, 2025
- 5:00pm to 7:00pm at the Concord branch
- Presented by Todd Soltero of RSD
- Dinner will be provided
- Cost: \$20 per person / No refunds for absentees
