

Raypak WAGES

Water, Air, Gas, Electricity, and Sequence

RSD is hosting a WAGES: Water (piping), Air (combustion and venting), Gas Pressure, Electricity & Controls, and Sequence of Operation seminar. This course will cover applications, proper boiler selections, things to avoid, and what you need to understand to recommend the best hot water solution to your clients. It will offer a better understanding of venting, controls, and piping during installation. It will also cover standard maintenance and troubleshooting.

SPACE IS LIMITED!

- Thursday, March 27th, 2025
- 5:00pm to 7:30pm at the Temecula branch
- Presented by Brian McDonald of California Hot Water
- Dinner will be provided
- Cost: \$20 per person / No refunds for absentees
